

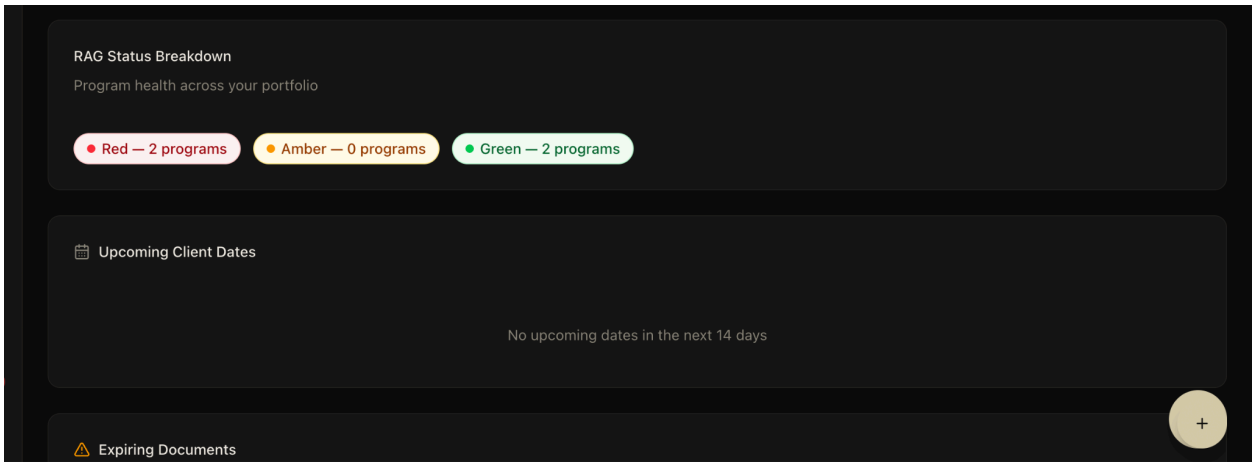
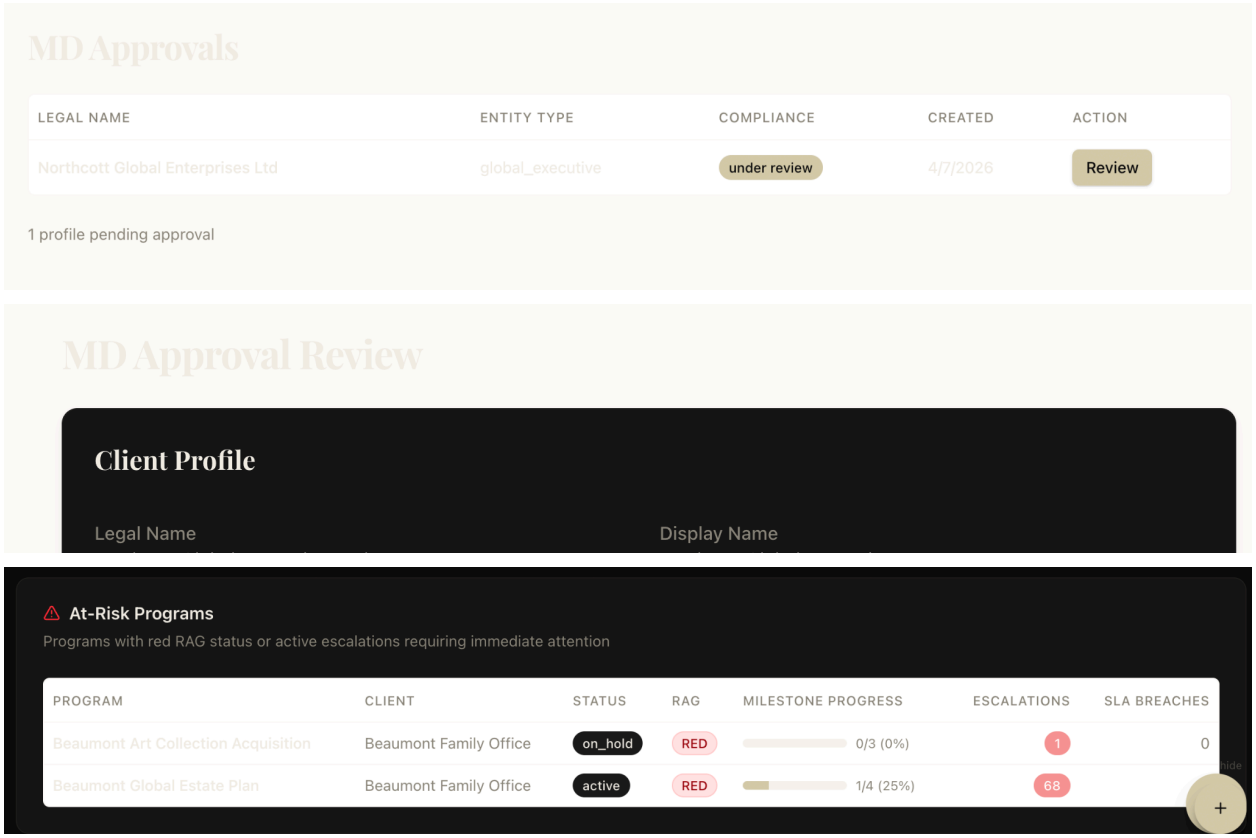
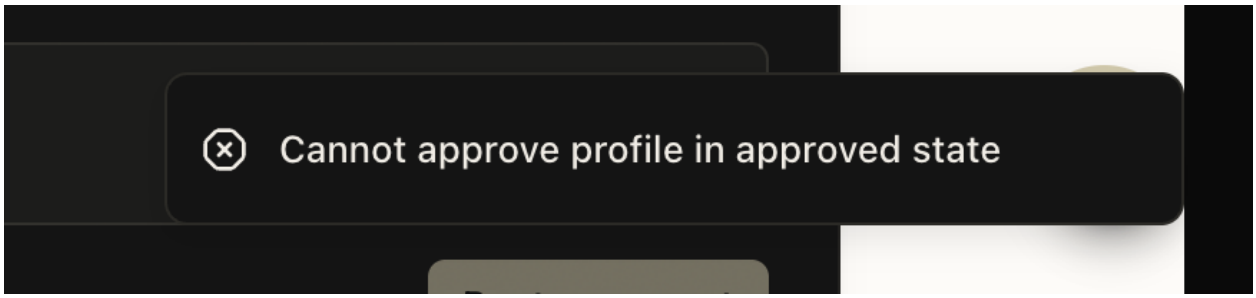
The “New Communication” and “New Escalation” buttons are not working.



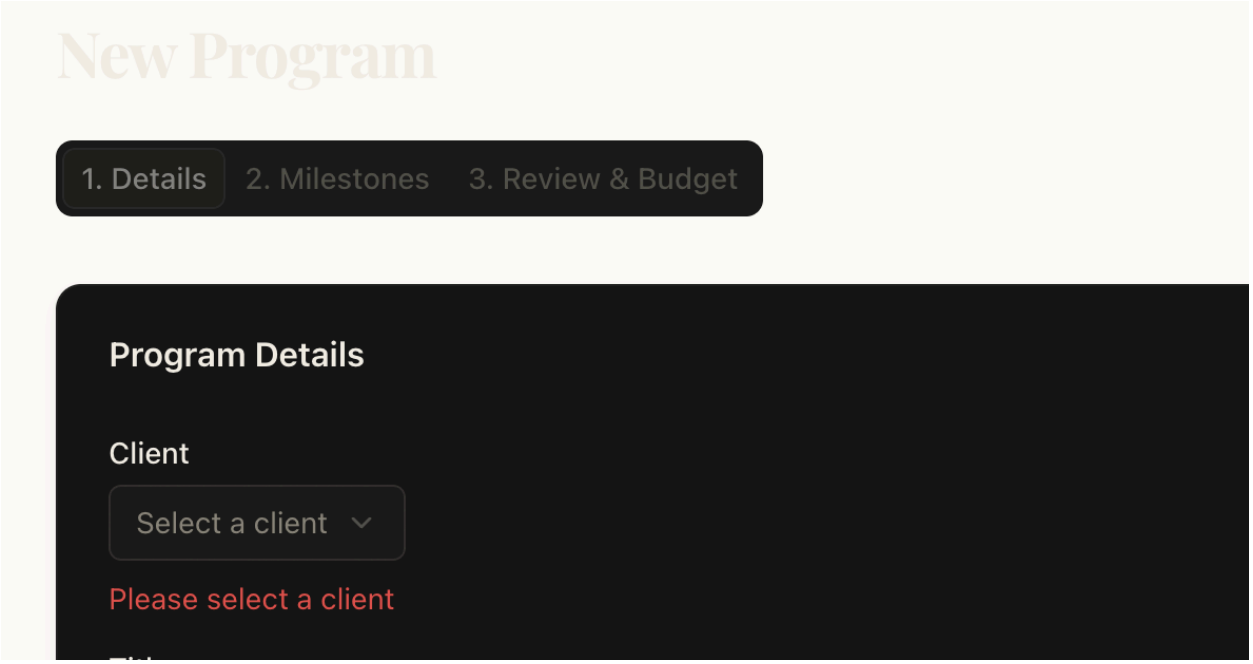
There are two buttons at the lower right section of the portal, it's hard to click the "Send Feedback" button



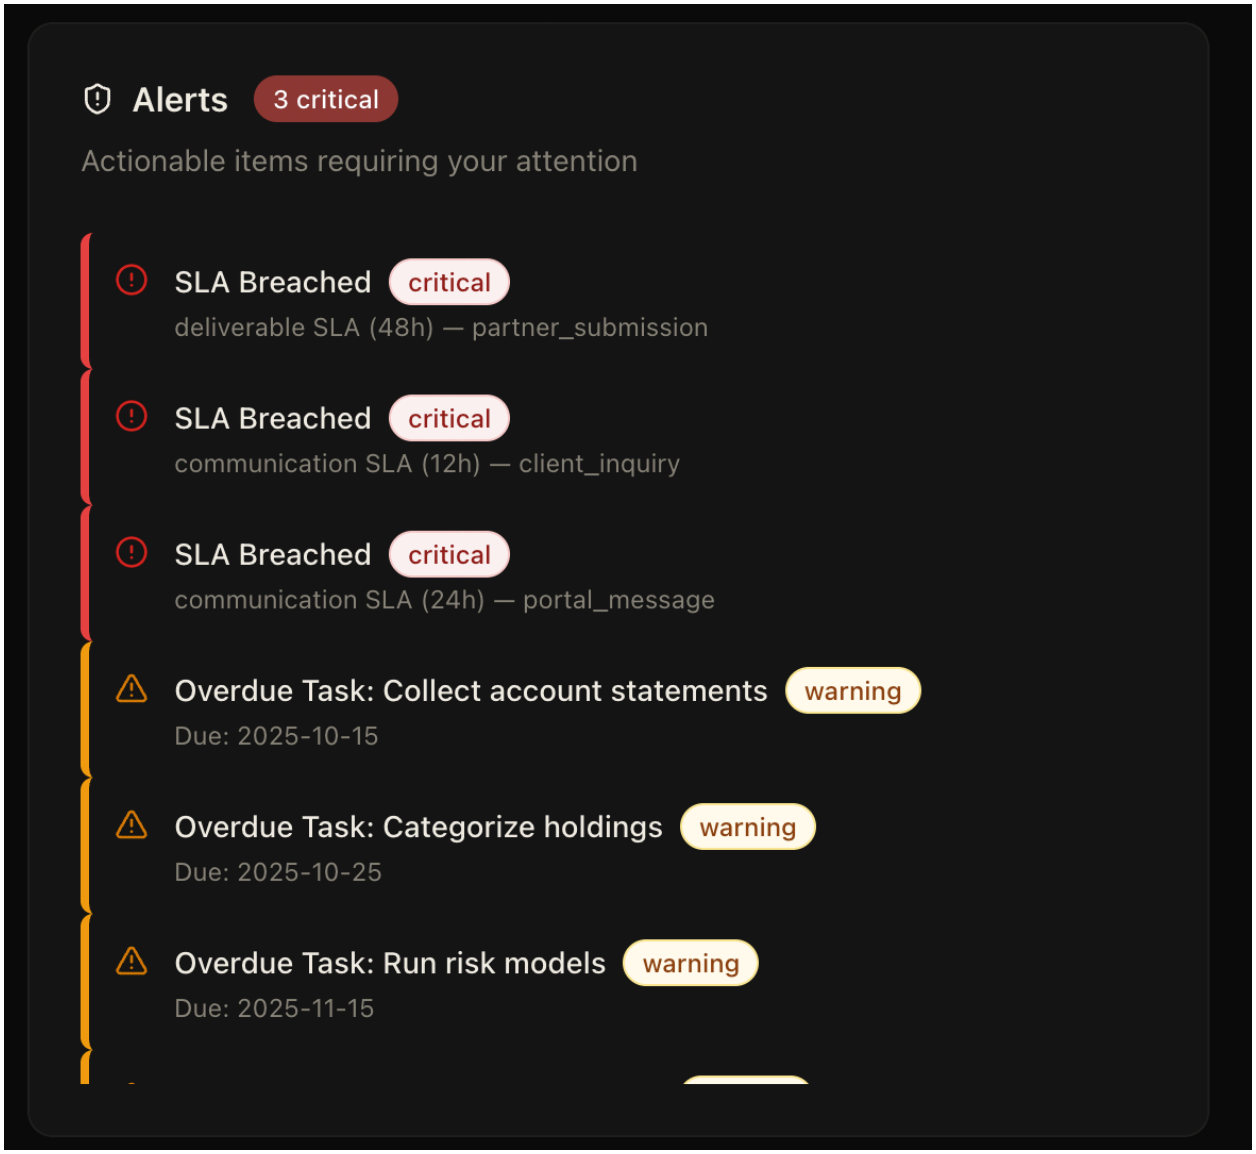
Can we change the color, maybe the colors of the text so it's readable?



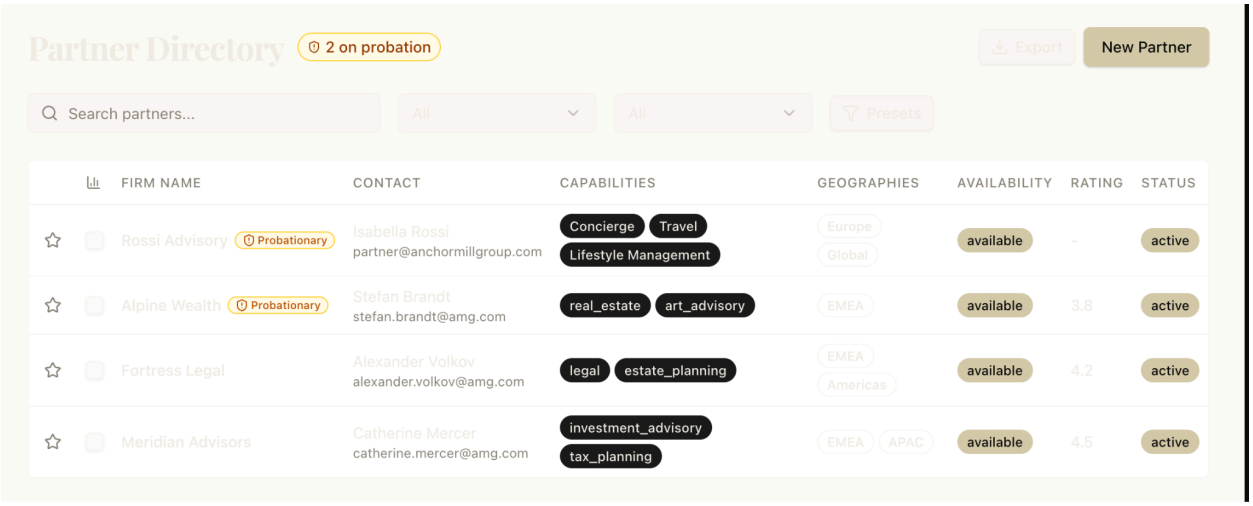
This is showing after submitting a decision (approve/reject both not working)



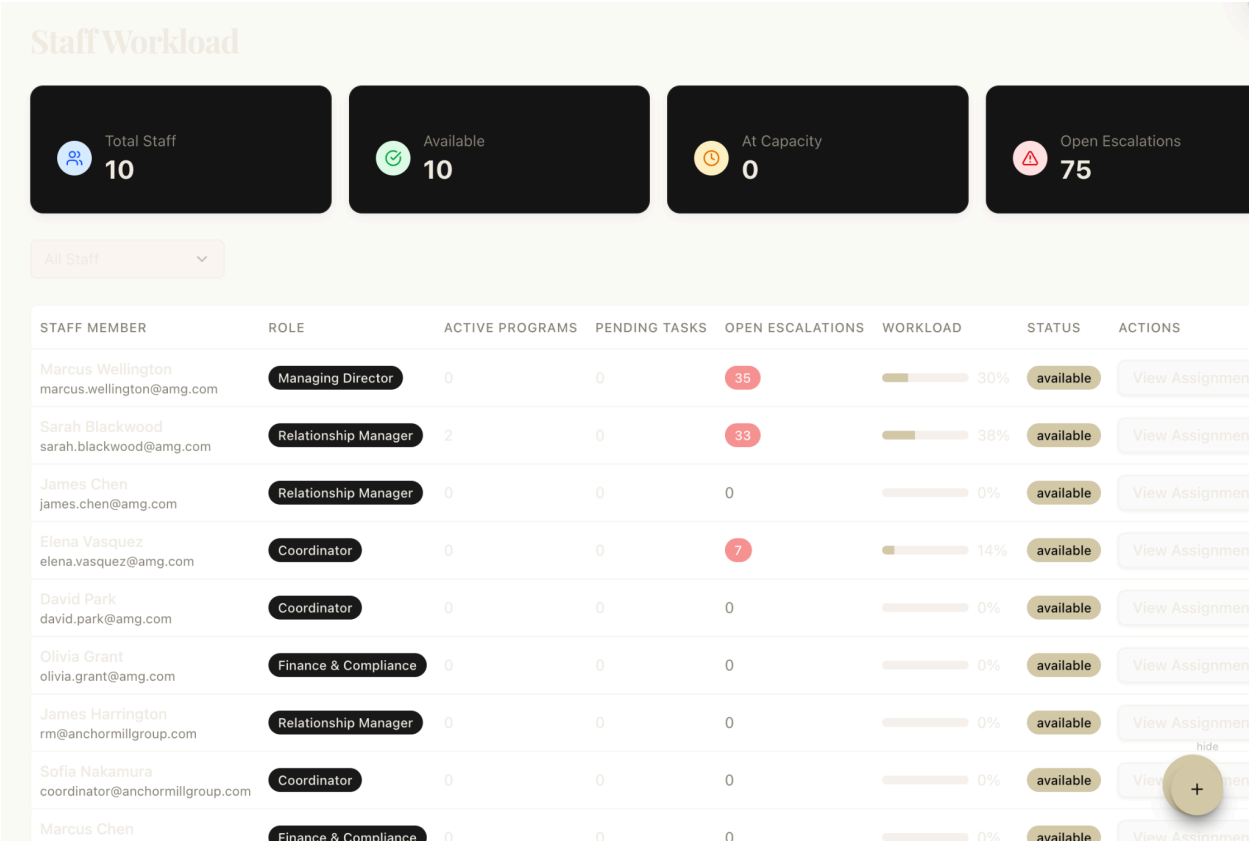
The client can't be selected when adding a new program



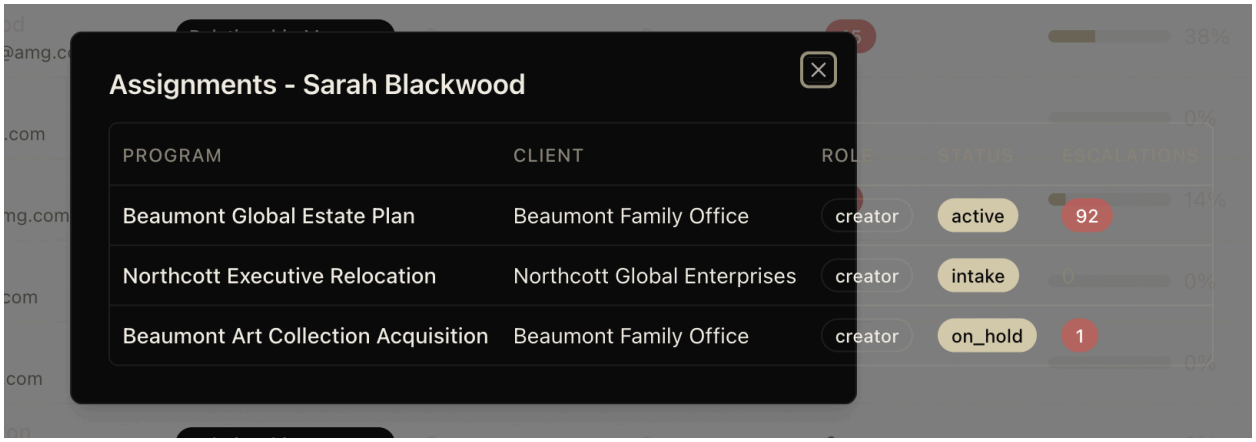
Alerts with warning status is going to 404 page not found when clicked



Tried to create “New Partner” here but it’s not showing in the current list.



In staff workload, can we make the whole table in one single view, the “Actions” part is not fully included, so i have to navigate to the right just to see the whole Actions column.



This is what's showing if you click the "View Assignments" in Workload page, need to update the popup box to cover the entire table.
